

High School Outreach Program

Let us celebrate your success with your high school while engaging with future students! Simply provide the name and location of where you attended high school, and we will send a letter to their Principal and college counselor telling them about your success and also about the University of Richmond. For public schools, we will also copy the superintendent. This is an unconventional way to raise our profile with the high school community, and gives the schools a new and tangible way to show students that graduating high school is only the beginning.
